AIDE MEMOIRE

25 January 2022

STATUS OF VACCINATION IN DEPED (DECEMBER 2021) AND RELATED UPDATES

The DepEd Task Force COVID-19 (DTFC), through its vaccination program representatives, provides the following updates on the status of vaccination in the Department.

A. Vaccination Data Submitted by Regional Focals

- No less than 8 out of 10 DepEd field personnel now have at least first dose of the COVID-19 vaccine, while almost **7 out of 10 are already fully vaccinated.**
- The data, covering **970,703** personnel from field offices and schools, are based on the submissions of Regional COVID-19 Response/Vaccination Focals to the Bureau of Learner Support Services-School Health Division (BLSS-SHD), for the month of December.¹
- The number of vaccinated personnel now stands at **779,022** (with at least first dose during the reporting period, **70,990** higher than the reported figure in November. This constitutes to **80.25%** of the eligible population, 7.7 percentage points higher than the previous percent vaccination coverage of 72.55%.
- **205,311** or **21.27%** of the total number of have not been vaccinated, although only less than a quarter of this number (5.06%) have not registered for vaccination.

¹ Per DTFC Memorandum Nos. 513 and 531, the cutoff date for the regular monthly vaccination report shall be 15 December 2021; however, actual cutoff dates vary per region, given local circumstances; for example, the data provided by Region VI is as of 27 December, while Region VII was able to submit its [December] data on 12 January 2022, given the difficulties in reporting due to the Typhoon Odette that affected the regions.

National Summary (December 2021)

Vaccination Status		No. of Personnel		% ²	
Vaccinated	Incomplete/First dose only	128,405	779,022	13.23	80.25
	Complete/Up to second dose	650,537		67.02	
Unvaccinated	Registered	156,299	205,311	16.20	21.27
	Unregistered	49,152		5.06	
Unknown		4,175		0.43	
Total (Eligible Population)		970,694		101.94³	

- Attached is the regional breakdown of submitted data (**Annex A**) for ready reference. Discrepancies in the percentage totals (more or less than 100%) have been noted in most regions and have affected the percentage total for the national summary.

Percentage of Vaccinated Field Personnel (with at least first dose)

- There has been roughly 300% increase in the percentage of vaccinated personnel from July to December. That is an average of roughly 10 percentage points increase per month over the course of six months, although the increase relatively slowed down in the last three months.
- While the percentage of unvaccinated personnel in December (5.06%) is already half of that in October (10.97%), it is only 1.7 percentage points less than that in November (6.76%).

² % over total number of personnel

³ Total % is 101.83%. Discrepancies have been observed in submitted data; (Possible reasons: the total eligible population has not been updated based on actual number of personnel who have reported their vaccination status; possible double-reporting [e.g., personnel reported as both having received first dose, and having received second dose])

- These may further confirm that at this point, those who remain unvaccinated and have not registered are likely those who have already decided and have their reasons for such decision.

- Among the personnel who said that they did not register for vaccination, the number of those who were waiting for their preferred brand—although slightly lower in November than in October—is still higher than those who lacked trust in the COVID-19 vaccine. The messaging that all vaccine brands are safe and effective needs to be reiterated.

Number of Personnel Who Reported Reasons for Not Registering

Reason	Nov	Dec
Disqualified by Attending Physician	1,486	1,518
Lack of Trust in the COVID-19 Vaccine	10,466	7,750
Waiting for Preferred Brand	11,323	5,908
Other Reasons	23,514	16,277
No Cited Reason	20,989	17,843

- The summary of the data submitted by the regional focals may be accessed at <https://bit.ly/decemberdtfcvaccdatasummary> (Summary of Regional Data).

B. Vaccination at the Central Office⁴

- The latest available data on the vaccination of Central Office personnel is as of **12 January 2022** as provided by the Bureau of Human Resource and Organizational Development-Employee Welfare Division (BHROD-EWD).
- Nearly 9 out of 10 personnel at the Central Office are already fully vaccinated. Less than 4% have only their first dose.

⁴ Source: Bureau of Human Resource and Organizational Development-Employee Welfare Division (BHROD-EWD) for the updated vaccination data of Central Office personnel. Per the latest coordination, the BHROD-EWD has been facilitating partners' initiatives and has been closely coordinating with the Pasig City LGU/Health Office for vaccination efforts.

- Among those who have not been vaccinated, majority have already registered for vaccination. At least 30 personnel have not been vaccinated and have not registered for vaccination. The status of 141 others is unknown.

Vaccination Status			No. of Personnel	%
Vaccinated	Incomplete/First dose only	81	1,911	3.71%
	Complete/Up to second dose	1,830		83.75%
Unvaccinated	Registered	103	133	4.71%
	Unregistered	30		1.37%
Unknown			141	6.45%
Total			2,185	100%

- On 18 January 2022, **320 personnel⁵ received their booster shots** in a vaccination drive coordinated by the BHROD-EWD with the Pasig City Health Office. The BHROD-EWD is updating its records on the vaccination status of personnel.

C. Data from the Self-Reporting for COVID-19 Vaccination Tracker⁶

The following is a national summary of the data collected through the tracker, as accessed on **25 January 2022**:

Category	Number of Personnel	Breakdown	
Unvaccinated	95,732	Unregistered	65,565
		Awaiting schedule	30,167
Vaccinated	391,707	First dose	227,732
		Second dose	163,975
Total Number of Respondents	325,195	Teaching personnel	300,179
		Non-teaching	25,016

Kindly refer to the following breakdown of vaccinees per vaccine brand that they received:

Vaccine Received	Number of Personnel
Sinovac CoronaVac	119580
Janssen	44466
Oxford AstraZeneca	31875
Pfizer-BioNTech	24548
Moderna	7760
Gamaleya Sputnik V	2952
Sinopharm	706

The regional breakdown and latest data may be accessed at <https://mobile.app.deped.gov.ph/reports/dashboard> . DTFC continues to enjoin all to use and promote the tracker.

⁵ Including regional personnel from DepEd MIMAROPA

⁶ The OUA, through the ICTS, issued OUA Memorandum No. 00-721-0093 (*Mass Dissemination on Self-Reporting for COVID-19 Vaccination Tracker*) to officially disseminate the vaccination tracker, accessible through the DepEd Mobile App, and enjoin personnel nationwide to use the tracker in reporting their vaccination status.

D. Updates and Ways Forward

1. To further promote and ensure proper reporting of vaccination status through the vaccination tracker, the Office of the Undersecretary for Administration (OUA) through the Information and Communications Technology Service (ICTS), issued **OUA Memorandum No. 00-0122-0029** titled *Guidelines for the Updating and Resubmission of Vaccination Status through the Self-Reporting COVID Monitoring Application*. All are enjoined to report and update their vaccination status using the Vaccination Tracker, guided by the said memorandum as well as the previously issued **OUA Memorandum No. 00-721-0093** disseminating information about the tracker.
2. Per **DTFC Memorandum No. 513** titled *Regular Reporting of Vaccination Data by Regional Focals*, the regular monthly reporting of vaccination data by the regional focals, as a parallel effort, shall “continue every month until otherwise stopped by a future issuance, and while the Self-Reporting for COVID-19 Vaccination Tracker continues to be promoted...for data validation/triangulation purposes.” However, the schedule of reporting as presented in the said Memorandum show cut-off and submission dates up to December 2021 only. It is reiterated that the monthly reporting of vaccination data shall continue in 2022, although a new template will be used to reflect the number of personnel who have received their booster shots. This will be announced and further discussed through a separate issuance.
3. The DTFC reiterates its clarifications on DTFC Memorandum No. 575 titled *IATF Vaccination Requirement for Personnel Reporting On-Site Beginning 01 December 2021* (approved/signed by the Secretary), as communicated through **DTFC Memorandum No. 586**, dated 28 December 2021.

Provisions on vaccination have also been reiterated in DTFC **Memorandum No. 587** titled *Reiteration of the Required Health Standards, Vaccination, and On-Site Work Requirements*, and **DTFC Memorandum No. 588** titled *Mandatory Testing of Personnel Reporting On-Site Starting 05 January 2022, and Reiteration of the Required Health Standards, Including Conditions When Not to Report On-Site*.

In particular, the memoranda enjoin Heads of Offices to continue to encourage unvaccinated personnel to get their vaccine, and to put said personnel under work-from-home arrangement in case the IATF requirement (for onsite personnel to either be vaccinated or present a negative COVID-19 personnel) is already implemented in their respective jurisdictions.

Although DTFC Memorandum No. 588 is mainly for the Central Office, it can serve as a reference for field offices in implementing similar measures.

For queries regarding this concern, please contact the DTFC Secretariat, BLSS-SHD, through (02) 8632 9935 or email at medical.nursing@deped.gov.ph .

For information and guidance.
